Power Touring Gear by Tekrider... All new for '06 and Rider- Forward Ready!

- Technical outerwear that is "Rider-Forward Ready!"
- Feature-laden concept designed for the "high-miler".
- Rip-stop fabrics with waterproof-breathable coating.
- Seam-sealed in critical areas-ballistic nylon inserts in critical wear areas.
- Waterproof/windproof rubber zippers = instant ventilation.
- Outstanding versatility means it works great with or without a Tekvest.

All new for '06 - The TXC Pant

.....There isn't another pant around like this one!

- Padded shin & knee areas makes it "Rider-Forward Ready!"
- A strong racing heritage with Todd Wolff 2-time 1500 winner.
- Articulated knee design for max comfort & protection.
- No insulation compression across knee cap so stay warm at high speed.
- Absorbent triple-layer butt section with outstanding wicking performance.
- Rugged hanging loop and access port for to make overnight drying easier when on tour.
- Low-cut bib with thin shoulder straps that will not slide off the shoulders.
- Over the boot locking snow cuff to keep out snow and wind.
- Works best with technical base-layer products.
- Dual-stage pocket with map & wallet pocket.

Supertrax test pilot, Harold McAdam "Stylin" with PTG Prototype

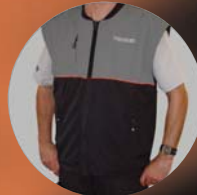

"Tekrider's new Power Touring Gear line fills a void in current clothing design. Last year we racked up 1000's of miles on the proto gear and we can tell you that Tekrider makes, hands down, the best bibs we've ever ridden with! The TXC bibs are clearly designed to work with the new generation of Rider-Forward sleds. The key features include articulated knee ergos and a fit like a tailored Tux. Warm, durable and extremely comfortable, we're gonna wear these things until they've got holes. A great match for their TXC Jacket and jersey. With or without a Tekvest, the PTG line is a great package for the serious high-miler."

Mark Lester – Supertrax Magazine

All new for '06 - The TXC Jacket

..... No other snowmobile jacket flows this much air!

- Technical 3 in 1 Power Touring Jacket "Rider-Forward Ready!"
- Florange panels in the arms and upper back for instant trail visibility.
- 3M reflective piping and patches for increased visibility.
- Fully insulated sleeves and body.
- Coolmax lining technology.
- Can be worn with or without Tekvest.
- Rubber coated venting zippers in arms, pits, chest and back area.
- Dual hand pockets and inner security pocket with zippers.
- Zip-in riding vest included for colder days. Reversible design makes for great street wear.

Introductory Offer - When you buy a 2-piece TXC Suit you get a "Freestyle" Tekvest at no charge!

The all-new 2006 "Freestyle" Tekvest! – A great cross-over product for ATV, Dual Sporters and Mountain Snowmobilers

- Upper-body protection for all trail riders regardless of age, gender or experience level.
- A great wind-stopper and provides "electric blanket" warmth for your lower back on colder days
- Closed-cell foam & UHMW plastic laminate soft armor configuration provides a high level of all-around race-proven protection.
- Optional quick-attach shoulder pads are available – Will make it **ISR race legal** for Sno X.
- Works best with any 3 in 1 jacket with zip out lining.
